

Please do not take FM translators off the air. Our family listens ONLY to KLOVE on 91.1 in Denver. We need KLOVE to continue to provide wholesome, positive programming that directly impacts our 3 children and their friends. Because of KLOVE's uniqueness, it provides a local service, that I would not get in any other station. KLove directly impacts my community. The impact of taking Klove off the air would be devastating for those of us that have come to depend on it. Please, it is in the public's best interest to continue to allow it to stay on the air, because it provides a service that no other station can or is willing to provide.

Thank you,  
Dora Collins
